Chartwell Books, United States, 2016. Hardback. Book Condition: New. 201 x 165 mm. Language: English . Brand New Book. Don't underestimate the power of scales. Without knowledge of scales the wannabe guitarist could be equated to the hapless builder, attempting to construct a house with zero knowledge of bricklaying; the odds are the end result will be a pile of rubble! Without a solid, practical knowledge of scales, creating music can only be an extremely frustrating experience with no guarantee of achieving useable results. Creating melodies, chord progressions, or even improvising can only be a hit or miss affair, based on luck and chance. That's why professional musicians practice them daily. So why do you need to buy this book? Why can't you just search guitar scales online for free? Because this book has been written by a guitarist with 40 years of playing and 35 years of industry experience; with 25 years of teaching experience in both schools and colleges; with 14 bestselling tuition books published worldwide to date; and with 15 years of experience writing tutorials for two of the world's most premier guitar magazines.
