Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Oil and Gas Fields of the Carnegie Quadrangle, Pennsylvania Field work for a report on the oil and gas of the Carnegie quadrangle was begun by the writer July 23, 1907, and carried on intermittently until December 11 of the same year. The actual time consumed was about three months, the work including less than one month s service of G. L. Hagnmn as levelman. This statement does not include the time occupied in mapping the outcrop of the Pittsburg coal and in drawing the structural contours - work that was done by G. C. Martin and George F. Peck in connection with geologic work for a folio on this quadrangle. The writer wishes to acknowledge his indebtedness to hundreds of residents of the region examined for their universally courteous and friendly answers to his inquiries. Special acknowledgment is made to the officers and employees of the large number of oil and gas companies operating in this territory who have furnished hundreds of well records and other data of value. Location. The Carnegie quadrangle embraces an area of about 227 square miles in the southwestern part of Pennsylvania, in the vicinity of Pittsburg. It is a quadrilateral, lying between parallels 40 15 and 40 30 north latitude and meridians 80 and 80 15 west longitude. From Plate I it will be seen that this quadrangle includes portions of Allegheny and Washington counties. It is bounded on the north by the Sewickley quadrangle, of which an oil and gas bulletin is being published by the State of Pennsylvania and a folio by the United States Geological Survey. About the Publisher Forgotten Books publishes hundreds of thousands...
