COPY NUMBER VARIATION

Alphascript Publishing Feb 2010, 2010. Taschenbuch. Book Condition: Neu. 220x150x14 mm. Neuware - A copy number variation (CNV) is a segment of DNA in which copy-number differences have been found by comparison of two or more genomes. The segment may range from one kilobase to several megabases in size. Humans (being diploid) ordinarily have two copies of each autosomal region, one per chromosome. This may vary for particular genetic regions due to deletion or duplication. CNVs may either be inherited or...

Reviews

The most effective book i at any time read through. It is definitely simplistic but surprises in the fifty percent from the ebook. Your daily life span will probably be enhance once you full reading this ebook.

-- **Jules Dietrich V**

Completely among the finest book I have actually read through. It is probably the most remarkable book we have study. I discovered this book from my dad and i suggested this book to learn.

-- **Georgiana Pacocha**
