S counternarcotics programs in Mexico and Afghanistan highlighted the need to improve the programs performance measures to track progress. The Department of State (State) received over 1 billion in its fiscal year 2010 appropriation for international counternarcotics assistance programs. The vast majority of this funding--about 90 percent in fiscal year 2010--supports counternarcotics programs in five countries--Mexico, Afghanistan, Colombia, Peru, and Bolivia. States Bureau of International Narcotics and Law Enforcement Affairs (INL) is primarily responsible for implementing U. S. assistance programs involving eradication of illicit crops, interdiction of drug trafficking, and drug demand reduction, which represented about 85 percent of States counternarcotics appropriation in fiscal year 2010. INL implements a large share of its funding through contractors, primarily for aviation support for eradication and interdiction efforts. Congress asked us to review States performance measures for its counternarcotics programs. On March 10, 2011, we briefed congressional staff on our preliminary findings in which we described States performance management system, including States standard indicators for measuring the performance of counternarcotics assistance in recipient countries and requirements for posts to develop project-specific performance measures. Following the briefing, in subsequent correspondence with your office, we agreed to provide to you the information presented in the briefing, updated with additional material, that describes (1) how State measures the performance of its international counternarcotics assistance efforts, and (2) the nature of its counternarcotics contracts and whether these contracts are linked to States performance management system. This report provides a summary of the observations conveyed at this briefing. This item ships from La Vergne, TN. Paperback.
